We are committed to providing the highest quality of care for our cats. Harmony House cats and kittens receive expert veterinary care and the one-on-one attention needed to be adopted into a loving home. Until then, they are safe and cared for at Harmony House. Since 1970, Harmony House for Cats has rescued and adopted out cats in a no-kill, cageless environment. Opened in July 2012, our new adoption center features state-of-the-art green technology and showcases our cats and kittens in Chicago's most ecofriendly shelter. Cats in every room of the shelter enjoy natural light and can look out at the trees and plants surrounding the building. Certified Platinum LEED-NC in November 2012, our building reflects how Harmony House as a shelter rests on the earth—in harmony with nature.

The purr-fect companion is waiting for you at Harmony House.

Hiya Harmony House!

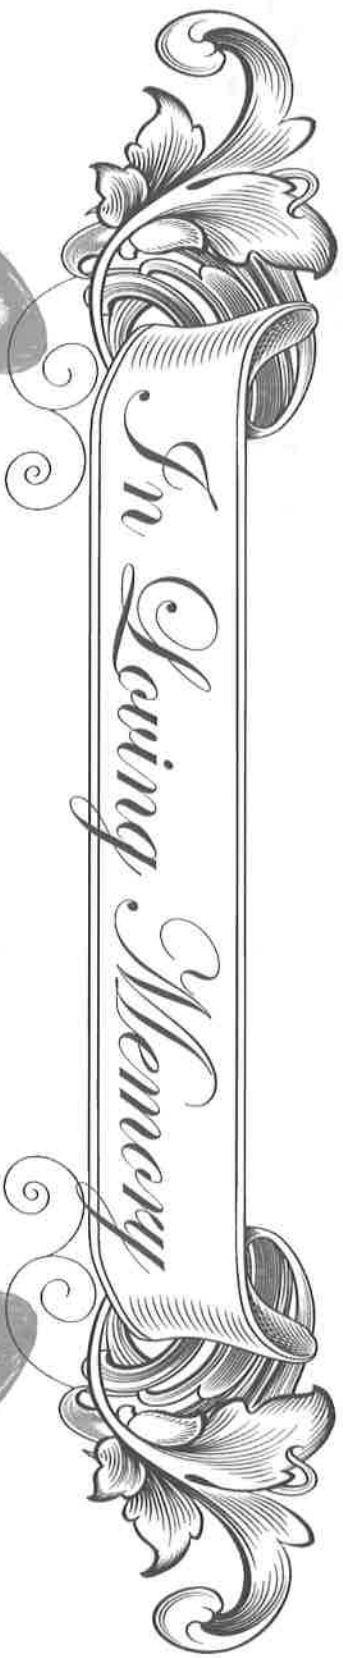

I thought you were pretty great when you saved my life. My injuries were so severe when I was found that I would not have made it if you hadn't been there to make sure that I got the surgeries I needed.

Even better than that, once I was well, you found a home for me!

I get to thank you again, because you found a new little sister for me! Thank you for taking Vivian in and getting her to me! And to Vivian's guardian angel, who made sure she got to Harmony House, thank you!

Affectionate special kitties seek adopters that can provide a little extra TLC in return for years of love and affection.

Kanga had emergency surgery for her severely injured tail when she arrived at Harmony House. She requires daily pain medication and an acupuncture treatment every 6 weeks to keep her healthy and pain-free. This bouncy 5 year old girl wants a cat friend to play with, and a home to call her own.

Lobelia is a gentle 5 year old girl who wants a feline companion. She will need daily eye drops and medication for the rest of her life, and has her paws and whiskers crossed that a special person out there will want a dainty lady like her.

Mr. Business was surrendered to Harmony House when his owner went into hospice care. A super affectionate 10 year old boy, he requires daily medication for his constipation, and would be happiest as an only pet. Mr. B is easy to medicate and such a love bug!

Tamar is on a high fiber diet, and would love to be an only pet in her new home. This snuggly 6 year old girl does not want to share your lap with anyone! Tamar came to the shelter when her owner went into an assisted living center.
